

## **POLICY ON FULL RANGE OF SERVICES**

**Adopted 18 July 1996**

All programs receiving funds from MLAC shall participate in planning for the establishment of an effective capacity within each local service area to provide as full a range of legal services as is needed by clients, giving due regard to limitations of funding, whether or not such services are allowed to be done by programs using Legal Services Corporation funding. Programs shall not enter into or propose arrangements which violate the LSC Act or Regulations.

The MLAC Board presumes that the necessary capacity can not be provided solely, though it may be in part, by contracting with one or more statewide providers of legal services.
